

[Principles Of Life - Hillis, Sadava, Heller, Price.pdf](#)

The primary units include: Cells, Genetics, Evolution, Diversity, Plant Form and Function, Animal Form and Function, and Ecology.

The students will demonstrate learning through class participation, group projects, individual projects, labs, homework, quizzes and tests.

Course Recommendation: This course is designed to be the equivalent of a college introductory biology course usually taken by Biology majors during their first year.

Board Approved Primary Resource:  
Principles of Life 1st edition  
By: Hillis, Sadava, Heller and Price  
Copyright 2012 by Sinauer Associates  
ISBN: 1-492-9117-6

Additional Registration Information: This course meets the rigorous course waiver for the Biology requirement. Summer homework may be required. In addition to the units of study, the AP Biology curriculum has "7 Significant Practices" that will be covered over the course of the year. There is a SIGNIFICANT emphasis on quantitative skills and application of mathematical methods during the course and on the AP exam in May. Only the online course does not meet the requirements for NCAA approved core courses. See your dean for more information.

## **Chemistry Chemistry Hybrid (LSHS)**

Grades: 9-12  
Instructional Delivery: Face-to-face, hybrid or online  
Prerequisite: Geometry  
Year-long course  
This course fulfills the Chemistry option for graduation.

Course Description: Chemistry is the study of the elements that make-up our world and how they can be combined, arranged and rearranged to modify a substance or create something new. Students will develop skills to answer many types of scientific questions.

The primary units of study include states of matter, bonding, the periodic table, atomic structure, chemical reactions and stoichiometry.

Students will demonstrate learning through laboratory work, worksheets, quizzes, and tests.

Course Recommendation: This course is recommended for students who need to fulfill the Chemistry requirement for graduation.

Board Approved Primary Resource:  
Holt Chemistry  
R. Thomas Myers - Keith B Oldham - Salvatore Tocci - Holt, Rinehart and Winston – 2006 – Print  
ISBN: 9780030391071

Additional Registration Information: The hybrid course is offered at LSHS only. LNHS students provide their own transportation. Only the online course does not meet the requirements for NCAA approved core courses. See your dean for more information.

## **Honors Chemistry Honors Chemistry Hybrid (LSHS)**

Grades: 9-12  
Instructional Delivery: Face-to-face or hybrid  
Prerequisite: Geometry  
Year-long course  
This course fulfills the Chemistry option for graduation.

Course Description: Honors Chemistry is the study of the elements that make-up our world and how they can be combined, arranged and rearranged to modify a substance or create something new. Students will develop skills to answer many types of scientific questions.

The primary units of study include states of matter, bonding, the periodic table, atomic structure, chemical reactions and stoichiometry.

Students will demonstrate learning through laboratory work, worksheets, quizzes, and tests.

Course Recommendation: This course is recommended for the highly motivated Science student. The faster pace and increased rigor prepares students for more advanced science classes. Students best suited for this class should have excelled in previous science classes. This course, in conjunction with Physics, meets the rigorous course waiver for the Physical Science requirement.

Board Approved Primary Resource:  
Holt Chemistry  
R. Thomas Myers - Keith B Oldham - Salvatore Tocci - Holt, Rinehart and Winston – 2006 – Print  
ISBN: 9780030391071

Additional Registration Information: The hybrid course is offered at LSHS only. LNHS students provide their own transportation.

## **Advanced Placement Chemistry Advanced Placement Chemistry Hybrid (LSHS)**

Grades: 9-12  
Instructional Delivery: Face-to-face or hybrid  
Prerequisite: Concurrent enrollment in Algebra 2 or higher during semester two of the course.  
Three semester-long course  
Course offering: Face-to-face  
This course fulfills the Chemistry option for graduation.

The Advanced Placement program (AP) provides high school students with the opportunity to take college-level coursework and exams while still in high school, with each course culminating in a rigorous, optional exam to earn potential college credit. AP provides motivated and academically prepared students with the opportunity to develop the study skills, habits of mind, and critical thinking skills that they will need in college.

Course Description: Advanced Placement Chemistry is the study of the elements that make-up our world and how they can be combined, arranged and rearranged to modify a substance or create something new. Students will develop skills to answer many types of scientific
